Subject: ATSDR Exide update

Hi Enrique and Deldi,

I wanted to let you know that the LA County Department of Public Health has expressed interest in applying for a current ATSDR funding opportunity to support community health outreach in the areas affected by Exide. I don't know whether they've talked with DTSC or others about their interest in this opportunity, but I thought I'd give you a heads up, in case they're successful.

Additional information on the ATSDR Community Health Projects Related to Contamination at Brownfield/Land Reuse Sites funding opportunity is available [here](#).

Best,

Ben
